

PRODUCT LIST

ALL PRODUCTS MADE IN USA

PART #	PRODUCT	DESCRIPTION	The Basics	IMAGE
FNG-102	TwinCORE	2-Channel, 2 SIM Mobile Cellular Gateway with 2.4 and 5.0 Wi-Fi	<p>Native DC power No moving parts to be affected by vehicle movement Passively cooled for a wide range of temperatures Large coverage area secure Wi-Fi for bodycams and other devices GPS tracking embedded in unit</p>	
FNG-102 A2	TwinCORE X	2-Channel, High Throughput AWS 2 SIM Mobile Cellular Gateway with 2.4 and 5.0 Wi-Fi	<p>Native DC power No moving parts to be affected by vehicle movement Passively cooled for a wide range of temperatures Large coverage area secure Wi-Fi for bodycams and other devices GPS tracking embedded in unit</p>	
FNG-104	Mobile CORE	4-Channel, 4 SIM, Dual Processor, Mobile Cellular Gateway with 2.4 and 5.0 Wi-Fi	<p>Native DC power No moving parts to be affected by vehicle movement Passively cooled for a wide range of temperatures Large coverage area secure Wi-Fi for bodycams and other devices GPS tracking embedded in unit</p>	
FNG-104 A2	Mobile CORE X	4-Channel, High Throughput AWS, 4 SIM, Dual Processor, Mobile Cellular Gateway with 2.4 and 5.0 Wi-Fi	<p>Native DC power No moving parts to be affected by vehicle movement Passively cooled for a wide range of temperatures Large coverage area secure Wi-Fi for bodycams and other devices GPS tracking embedded in unit</p>	

<p>FNG-104MC</p>	<p>Marine CORE</p>	<p>4-Channel, 4 SIM, Dual Processor, Mobile Cellular Gateway with 2.4 and 5.0 Wi-Fi Marine Core, Conformal Coated</p>	<p>Agile routing for automatic switching between LTE and satellite services Intelligent software to scan for the best LTE connection available No moving parts to be affected by ship movement Automatic switching between carriers for expanded coverage GPS tracking embedded</p>	
<p>FNG-108</p>	<p>Enterprise CORE RM</p>	<p>8 channel rack mountable cellular gateway 1U</p>	<p>8X4G/LTE channels for data, voice, fax & SMS Fallback to 3G/UMTS & 2G/GSM Channel bonding & load balancing for high throughput Open VPN & WireGuard VPN support Local and cloud-based SIM management Optional integrated GPS/GNSS Redundant power supply LTE Cat 4 module optimized for M2M and IoT applications Worldwide LTE, UMTS/HSPA(+) and GSM/GPRS/EDGE coverage</p>	
<p>FNG-104T</p>	<p>CORE Patrol</p>	<p>Tactical Communications Backpack with a 4-Channel Mobile Cellular Gateway and Wi-Fi</p>	<p>Lightweight, Long Battery Life No moving parts to be affected by movement Passively cooled for a wide range of temperatures GPS tracking embedded in the unit Interconnect points for providing data to other equipment May be deployed singularly or peer-to-peer mesh with multiple backpacks Central Server option to remotely manage multiple units</p>	

<p>FNG-104TL</p>	<p>CORE Patrol LMR</p>	<p>Tactical Communications Backpack with a 4-Channel Mobile Cellular Gateway with Wi-Fi and Land Mobile Radio Interface</p>	<p>Lightweight, Long Battery Life No moving parts to be affected by movement Passively cooled for a wide range of temperatures GPS tracking embedded in the unit Interconnect points for providing data to other equipment May be deployed singularly or peer-to-peer mesh with multiple backpacks Central Server option to remotely manage multiple units</p>	
<p>FNG-104CT</p>	<p>CORE CommsKit</p>	<p>Tactical Communications Platform with a 4-Channel Mobile Cellular Gateway with Wi-Fi Contained within a Hardened Waterproof Case</p>	<p>Lightweight Hard Case Long battery life No moving parts to be affected by movement Passively cooled for a wide range of temperatures GPS tracking embedded Interconnect points for providing data to other equipment May be deployed singularly or peer-to-peer mesh with multiple cases Central Server option to remotely manage multiple units</p>	

<p>FNG-104CTL</p>	<p>CORE CommsKit LMR</p>	<p>Tactical Communications Platform with a 4-Channel Mobile Cellular Gateway with Wi-Fi and Land Mobile Radio Interface Contained within a Hardened Waterproof Case</p>	<p>Lightweight Hard Case Long battery life No moving parts to be affected by movement Passively cooled for a wide range of temperatures GPS tracking embedded Interconnect points for providing data to other equipment May be deployed singularly or peer-to-peer mesh with multiple cases Central Server option to remotely manage multiple units</p>	
<p>FNG-104CH</p>	<p>CORE CommsKit LMR Hub</p>	<p>Tactical Communications Platform with a 4-Channel Mobile Cellular Gateway with Wi-Fi, Land Mobile Radio Interface, LMR hub for up to 64 field deployed units, Contained within a Hardened Waterproof Case</p>	<p>Lightweight Hard Case Long battery life No moving parts to be affected by movement Passively cooled for a wide range of temperatures GPS tracking embedded Interconnect points for providing data to other equipment May be deployed singularly or peer-to-peer mesh with multiple cases Central Server option to remotely manage multiple units</p>	

<p>FN-SBC</p>	<p>Session Border Controller</p>	<p>Session Border Controller</p>	<p>Demarcation point for voice IP networks For up to 500 simultaneous calls & 100 codec translation Physical independent Ethernet ports for WAN & LAN Energy consumption optimized solution TDM option for 2 E1 LTE/UMTS option for IP</p>	
<p>FN-PRI</p>	<p>VoIPBox PRI BIRI</p>	<p>VoIPBox PRI BIRI</p>	<p>Demarcation point for voice IP networks For up to 500 simultaneous calls & 100 codec translation Physical independent Ethernet ports for WAN & LAN Energy consumption optimized solution TDM option for 2 E1 LTE/UMTS option for IP</p>	
<p>FNG-800</p>	<p>CORE</p>	<p>Deployable and Complete Interoperable Communications Hub for Cellular, Land Mobile Radio, Satellite, Wi-Fi</p>	<p>Upgradeable: components and parts can be exchanged without modifying the unit; add more capabilities if needed Deployable: setup in under 15 mins, mobile and deployed from small SUV, connectivity via cellular, fiber, satellite, microwave or any Cost Effective: minimal training, integrates with existing system, networks and equipment Configurable: server-room configurations, mobile command center, man-portable</p>	
<p>FNS-2400</p>	<p>SIM Management Library</p>	<p>SIM Management Library, 2400 SIM Capacity, 2U, Rack Mountable</p>		
<p>FNS-120S</p>	<p>SIM Carrier</p>	<p>SIM Carrier, 120 SIM Capacity</p>		
<p>FNV-1000</p>	<p>Gateway Management Server</p>	<p>Gateway Management Server, Network Control Software, Management of Multiple Cellular Gateways</p>
